APPENDIX	
STATE REGULATORY AGENCIES	84

INTRODUCTION

Facilities Available to Missouri Industry for Hazardous Waste Management

was first issued in early 1975. Since that time it has been revised and expanded six times. The current edition is intended to assist generators of hazardous waste to find disposal and treatment facilities. This edition also includes a listing of the permitted incinerators and landfills in the United States which may accept various wastes from industry, a listing of the EPA approved polychlorinated biphenyls (PCB's) disposal facilities, and a new section on facilities that recover waste oil.

In accordance with subtitle C of the Resource Conservation and Recovery Act, many states have implemented or are implementing their own hazardous waste regulatory programs. Therefore, the permit status of hazardous waste management facilities is changing in many states. A list of regulatory agencies has been provided so that information on current regulations and permit status of facilities can be obtained.

Hazardous wastes are defined or listed in Chapter 4 of the Missouri Rules and include acidic and caustic wastes, various plating and treatment sludges, pesticide residues, various chemical wastes, used oils and solvents, as well as containers and other materials that have been contaminated with hazardous wastes or hazardous materials.

The hazardous waste facilities listed will be able to provide more information about wastes handled, processes, storage space available, transportation services and cost.

Suggestions for the improvement of this publication or questions concerning the Missouri Hazardous Waste Management Law and Rules may be directed to:

Missouri Department of Natural Resources

Hazardous Waste Management Section

P.O. Box 1368

Jefferson City, MO 65102

Telephone (314) 751-3241

NOTE: Listing or omission of a facility should not be construed as an endorsement or disapproval of that facility.

INDUSTRIAL WASTE INCINERATORS IN THE UNITED STATES

The companies listed in the following section process hazardous liquid and, in some cases, solid wastes by high temperature thermal oxidation. The operating temperatures and retention times vary with each incinerator. Because of this and other variations in design, the types of wastes handled will vary with each facility.

Wastes incinerated include most toxic organic chemicals such as solvents, glycols, inks, formaldehyde, halogenated and non-halogenated hydrocarbons, oils, and aqueous solutions. Toxic inorganics containing heavy metals should not be incinerated.

Hazardous waste incinerators are usually registered by local (city or county) air pollution agencies. Since the permit status of incinerators is subject to change, it is recommended that the state regulatory agency be consulted to check the current status.

INCINERATORS

Arkansas

ENSCO Energy Systems Company
P.O. Box 1975
El Dorado, Arkansas 71730

Contact: Charles Robertson, (501) 863-7173

Materials Accepted: Most wastes considered.

Georgia

Southeastern Waste Treatment
P.O. Box 1697
Dalton, Georgia 30720

Contact: James Henderson, (404) 278-0091

Material Accepted: Industrial solvents, contaminated oils, water with heavy metal concentration and other waste on a case-by-case basis.

Materials Excluded: Explosives, highly toxic waste, PCB's and radioactive material.

Illinois

Alburn, Inc.
Thermal Digester
2200 E. 119th Street
Chicago, Illinois 60617

Contact: Julia M. Hagerty (312) 236-2951

SCA Chemical Services
11700 S. Stony Island Avenue
Chicago, Illinois 60617

Contact: 312/646-0096

TWI, Inc.
#1 Mobile Avenue
Sauget, Illinois 62201

Contact: Jack McCoy (618) 271-2804

Kentucky

Liquid Waste Disposal, Inc.
P.O. Box 19063
Louisville, Kentucky 40219

Contact: George O'Brian (502) 968-6173

Material Accepted: Organic Solvents and cleaners, paint sludges.

L.W.D., Inc.
P.O. Box 327
Calvert City, Kentucky 42029

Contact: Amos H. Shelton, Jr., (502) 667-5005 or (502) 395-7515

Material Accepted: Various chemicals, hydrocarbons and water based
sludges and other waste on a case-by-case basis.

Louisiana

Rollins Environmental Services, Inc.
P.O. Box 73877
Baton Rouge, Louisiana 70807

Contact: Charles Calicott (504) 778-1234

Maine

Millington Enterprises, Inc.
Lincolntonville, Maine 04849

Contact: Donald Millington (207) 763-3163

Maryland

Multichem Corporation
1917 Benhill Avenue
Baltimore, MD 21226

Materials Accepted: Pathological waste biologically contaminated
hydrocarbons (non-halogenated) waste herbicides
and pesticides

Michigan

Commercial Pumping and Incineration Co.
400 Broadstreet
P.O. Box 301
Plainwell, Michigan 49080

Liquid Disposal Company
3901 Hamlin Road
Utica, Michigan 48087

Material Accepted: Most waste considered.

New Jersey

Rollins Environmental Services
P.O. Box 331
Bridgeport, NJ 08014

Contact: (609) 467-3100

Wastes Accepted: Sludges, Contaminated Residues, Spill Debris,
Slurries, Semi-solids, Heavy Metal Slurries.

North Carolina

Caldwell Systems, Inc.
Route 1
Mt. Herman Road
Hudson, North Carolina 28638

Contact: Bob Riggs, (919) 993-8148

Material Accepted: Hydrocarbon waste such as alcohols, ketones,
paraffins, spent solvents, etc.

Ohio

General Portland Inc.
Paulding Plant
P.O. Box 109
Paulding, Ohio 45879

Contact: Joe Duzurski (513) 372-8077

Materials Accepted: Pumpable materials which meet the following guidelines:

- a. non-halogenated or no more than 5% chlorine content;
- b. no more than 10% solids, 1% ash, and 1% water in a separated phase;
- c. at least 80,000 BTU/gallon heat content;
- d. no more than 2500 ppm heavy metals.

Ohio (cont.)

(Acceptance of wastes not meeting these guidelines is negotiable on a case by case basis.)

Services: Laboratory services to qualify a waste for acceptance.

Metropolitan Sewer District (MSD)

Liquid Fluid Incinerator

1600 Gest Street

Cincinnati, Ohio 45204

Contact: John Trapp (513) 352-4828

Materials Accepted: Pumpable halogenated and non-halogenated materials (including slurries) in tank loads only.

Services: Laboratory services to perform quality control.

Robert Ross and Sons

394 Giles Road

Grafton, Ohio 44044

Contact: Dennis Ross (216) 748-2171

Materials Accepted: Halogenated and non-halogenated solid or liquid materials, wastewater, up to 50 ppm PCB's are accepted but testing is required.

Services: Transportation

South Carolina

ABCO Industries, Inc.

Railroad Road

P.O. Box 335

Roebuck, South Carolina

Contact: (803) 576-6821

Quality Drum, Inc.

P.O. Box 2664

Rock Hill, SC

Contact: (803) 325-5276

Roebuck Systems, Inc.

P.O. Box 198

Roebuck, South Carolina 29376

Contact: Charles Milford (803) 576-6945

Materials Accepted: Waste accepted on a case-by-case basis; State approval required.

South Carolina (cont.)

Materials Excluded: PCBs, radioactive and heavy metals.

*Note: Any waste disposed at these facilities must have prior authorization from the South Carolina Department of Health and Environmental Control.

Texas

Rollins Environmental Services

Box 609

Deer Park, TX 77536

Contact: Bill Bradbury (713) 479-6001

Material Accepted: Most waste considered except radioactive waste and extremely explosive materials.

Sheridan Disposal Service

Box 42

Hempstead, TX 77445

Contact: (713) 826-3766

Materials Accepted: Oil sludges

POLYCHLORINATED BIPHENYLS (PCBs) DISPOSAL SITES

In the Federal Register, March 28, 1980, the Environmental Protection Agency issued the final rule for the "Disposal and Marking of Polychlorinated Biphenyls (PCBs)" (40 CFR 761.10). Under this rule, disposal of PCBs is prohibited after April 18, 1978, except at EPA approved facilities. All facility approvals will be granted by the appropriate EPA Regional Administrator. Future notices updating this list of approved facilities will be published in the Federal Register. For further information on EPA approved sites, please contact the appropriate EPA Regional Office.

POLYCHLORINATED BIPHENYLS (PCB's) DISPOSAL SITES

Alabama

Waste Management of Alabama, Inc.

P.O. Box 1200

Livingston, Alabama 35470

Contact: (205) 652-9529 Toll Free No.: (800) 241-7829

Type of PCB Waste Handled: Capacitors; properly drained transformers; contaminated soil, dirt, rags, and other debris; dredge spoils, municipal sludges; properly drained containers (drums); and liquid PCB's at a concentration between 50 & 500 ppm.

Type of Facility: Chemical Waste Landfill

EPA Regional Office Contact: Mr. James Scarbrough

and liquid PCB's

Type of Facility: Storage

LANDFILLS (LAGOONS & LANDFARMS)

Natural sites for hazardous waste landfills are limited due to the special conditions required for safe burial of toxic materials.

In Missouri, a good burial site will consist of a thick clay deposit located at an elevation well above the local water table. The clay must have a very low permeability to prevent the leaching of hazardous substances into ground or surface water. Provisions must be made for keeping the accumulation of moisture within the landfill to a minimum. This is accomplished by minimizing the amount of water entering the disposal area, and removal of any water that does enter the area. The design and operation of the facility must insure safe disposal of the waste and provide adequate protection of human health and the environment.

In general, land burial is suitable for hazardous solids and dewatered sludges of all kinds. Certain non-compatible wastes must be segregated to prevent unwanted chemical reactions. In Missouri, ignitable, reactive, volatile and bulk liquid hazardous wastes cannot be accepted at a hazardous waste landfill. Also wastes with high water content or high liquid organic content are usually not accepted at hazardous waste landfills. The former, however, can be solidified or filtered, and then buried. The latter are most often recycled or incinerated. Some oily wastes can be disposed of by discing into topsoil ("oil farming").

Lagoons for hazardous waste are lined with compacted clay or artificial membranes which have a low permeability. In some cases after solid sludges accumulate in the bottom, they are removed for burial in a hazardous waste landfill. In other cases, the sludge is covered in place with clay and compacted.

Landfarms apply the hazardous waste onto the land and/or into the surface soil. The waste is used as a fertilizer or soil conditioner. Over a period of time, the waste is biologically treated and rendered non-hazardous.

For most of the facilities in the following section, it will be necessary to furnish a sample of waste or a chemical analysis of the waste to the operator. The operator then furnishes information to the appropriate regulatory agency and requests approval to receive the waste. Normally, this is a one-time process (i.e. subsequent shipments of the same waste are covered by the letter of approval).

LANDFILLS, LAGOONS AND LANDFARMS

Alabama

Chem. Waste Management, Inc.

P.O. Box 55

Emelle, AL 35459

Waste Management of Alabama, Inc.

P. O. Box 1200

Livingston, Alabama 35470

Contact: Jim Parson (205) 652-9529 Sales 1-800-241-7829

Type of Facility: Landfill - consider all wastes

California

BKK Corporation

2550 237th Street

Torrance, CA 90505

Contact: Jack Thompson (213) 965-0911

Materials Accepted: All wastes in any form except explosives and radioactive.

Type of Facility: Landfill

Casmalia Disposal Co.

P.O. Box 5275

539 San Ysidro Road

Santa Barbara, CA 93108

Contact: Clifford Ivey (805) 937-8449

Materials Accepted: Liquids, sludges (bulk & containers) pesticide containers, and PCB's.

Type of Facility: Landfill

Chemical Waste Management, Inc.

P.O. Box 1104

Coalinga, CA 93210

Contact: John Markley (209) 935-2002

Materials Accepted: Everything except radioactive and water - reactive wastes. Amounts such as one gallon will be accepted.

Type of Facility: Landfill

Fresno County Resources & Development Dept.
4499 East Kings Canyon Road
Fresno, CA 93702

Contact: Dale Knopf (209) 453-3805

Materials Accepted: Only agricultural pesticides and their containers

Open only twice a year: Last 2 weeks in April and last 2 weeks in October.

Type of Facility: Landfill

IT Environmental Corporation
of Solano County
4575 Pacheco Blvd.
Martinez, CA 94553

Contact: Mark Posson (415) 228-5100

Materials Accepted: Liquids, sludges (acids, bases, pigment wastes, oil & water and heavy metals and contaminated soil)

Type of Facility: Landfill

IT Environmental Corporation
of Contra Costa County
4575 Pacheco Blvd.
Martinez, CA 94553

Contact: Mark Posson (415) 228-5100

Materials Accepted: Limited liquids and sludges, (acids, bases, solvents, cyanides & phenols).

Type of Facility: Landfill

Richmond Sanitary Service
205 - 41st Street
Richmond, CA 94805

Contact: Eddie Menose (415) 233-4330

Materials Accepted: Bulk liquids and sludges, contaminated soils

Type of Facility: Landfill

Ventura Regional County Sanitation District

Milwaukee, WI 53051

Contact: Donald Otter
(414) 251-1030

Type of Facility: Hazardous Waste Landfill

DISPOSAL WELLS

Listed below are disposal wells. These facilities are capable of accepting a wide range of liquid chemical wastes including sulfuric, hydrochloric and chromic acids, caustics, phosphates, and other aqueous solutions free of particulates.

Missouri law prohibits deep well injection of wastes.

Louisiana

Browning-Ferris Industries (BFI)
Chemical Services, Inc. Calcasieu
P.O. Box 5416
Drew Station
Lake Charles, Louisiana 70601

Contact: Walter Elkins (318) 527-6857

Rollins Environmental Services, Inc.
Deep Injection Well
P.O. Box 73877
Baton Rouge, Louisiana 70807

Contact: Wiley Irvy (504) 343-0728

Ohio

Ohio Liquid Disposal
504 Liberty Street
Fremont, Ohio 43420

Contact: Francis Sidoti (419) 332-2687 or
Ron Shawl (419) 547-7791

Materials Accepted: Acids and caustics for neutralization, waste oil.

Services: Deep well injection of supernatant from treated wastes;
solidification and disposal of sludge from treated waste,
laboratory services, transportation.

Oklahoma

Lamberton Acid Disposal Well
Tulsa County, Oklahoma

W.J. Lamberton Company
Chemical Resources, Inc.
2904 Fourth National Bank Bldg.
Tulsa, Oklahoma 74119

Owner/Operator: W.J. Lamberton, Ph.D.
2904 Fourth National Building
Tulsa, Oklahoma 74119

Contact: Dr. W. John Lamberton
or Terry L. Fisher
(918) 582-6994
(918) 582-9595

Texas

Browning-Ferris Industries
Chaparral Disposal Co.
P.O. Box 6509
Odessa, TX 79762

Contact: (915) 333-2826

Empak, Inc.
2000 W. Loop South
Suite 1800
Houston, TX 77027

Contact: (713) 623-0000

Intl. Pollution Control
Box 9601
Corpus Christi, TX 78408

Contact: (512) 852-8284 or 854-2348

Box 709
Texas City, TX 77590

Contact: (713) 945-3301

Sonics International
One Energy Square
Dallas, TX 75206

Contact: (214) 631-4411

SOLVENT RECOVERY, STORAGE AND TREATMENT FACILITIES

This section covers resource recovery and treatment facilities. The materials recovered include solvents, chrome, alcohol and paint waste. The resource recovery firms haul, process and sell materials back to the source industry or to a third party. The source industry will usually benefit either in lowered disposal and/or raw material purchase costs. The treatment facilities deal in liquid solidification, sludge dewatering, neutralization and other methods of treatment. Missouri has only one treatment facility which currently is operating under a variance.

SOLVENT RECOVERY, STORAGE AND TREATMENT FACILITIES

Alabama

All-Worth, Inc.
500 Medco Road
Birmingham, Alabama 35217

Contact: Leslie S. Allen (205) 841-1707

Material Accepted: Solvents

Type of Facility: Treatment

M & M Chemical Company, Inc.
Highway 11, North Reece City
Attalla, Alabama 35954

Contact: Marvin Fisher (205) 538-3800

Material Accepted: Solvents

Type of Facility: Treatment

Arizona

ESCO
P. O. Box 27383
Tucson, Arizona 85726

Contact: (602) 883-8953

Materials Accepted: Selective solvents

California

AJ Chem
Benicia Industrial Park
P.O. Box 158
Benicia, CA 94510

Contact: Angelo J. Accurso (707) 745-4030

Materials Accepted: Chrome tanning wastes: other chromium wastes that are free of other heavy metals.

Baron-Blakeslee
8333 Enterprise Drive
Mewark, CA 94560

Contact: Hubert W. Short (415) 794-6511

Materials Accepted: Chlorinated hydrocarbon solvents, including blends and azeotrope; Freon T.F. (trichlorotrifluoroethane).

Chatham Company
2257 Bernardo Ave.
Escondido, CA 92025

Contact: Thomas Chatham (714) 745-0721

Materials Accepted: Chlorinated hydrocarbon solvents

IT Corporation
4575 Pacheco Blvd.
Martinez, CA 94553

Contact: Bob Boot (415) 228-5100

Materials Accepted: Solvents

Kemstar Corporation
2073 Linnington Ave.
Los Angeles, CA 90025

Contact: (213) 666-7777

Materials Accepted: Pigments, colors, solvents, rubber chemical antioxidants, waxes, resins, plastics, and all related materials.

Oil & Solvent Process Company
1704 W. First Street
Azusa, CA 91702

Contact: Ken O'Morrow (213) 334-5117

Materials Accepted: Hydrocarbon thinners and solvents; oxygenated and chlorinated hydrocarbon solvents.

Omega Chemical Processing Corporation
12504 East Whittier Blvd.
Whittier, CA 90602

Contact: Dennis R. O'Meara

Materials Accepted: All types of refrigerants (freon's, genetron's, lithium bromides); halogenated, and oxygenated hydrocarbon solvents; silicones, tetrahydrofuran, dimethyl formamide, and blends; specialty chemicals.

Rho-Chem Corporation
425 Isis Avenue
Inglewood, CA 90301

Contact: Dick Gustafson (213) 776-6233

Materials Accepted: Chlorinated hydrocarbon solvents; trichlorotrifluoroethane (TF or 113).

Romic Chemical Corporation
2081 Bay Road
East Palo Alto, CA 94303

Contact: H. Michael Schneider (415) 324-1638

Materials Accepted: Aliphatic and aromatic hydrocarbons; alcohols, glycols, esters, glycol ethers, ketones, chlorinated hydrocarbons, Freons, alkanolamines, and various other organic chemicals.

Smith and Company
1220 S. 49th Street
Richmond, CA 94804

Contact: Steve Smith (415) 237-5986

Materials Accepted: Adhesives, sealants, coatings, solvents, industrial chemicals of certain types.

Van Waters & Rogers
2256 Junction Ave.
San Jose, CA 95131

Contact: D. H. Butler (408) 263-9900

Materials Accepted: Chlorinated hydrocarbon solvents.

Connecticut

Connecticut Treatment Corp.
51 Broderick Road
Bristol, CT 06010

Contact: (203) 583-8917

Materials Accepted: Spent acids and caustics, various plating wastes, cyanides.

Environmental Waste Removal, Inc.
130 Freight Street
Waterbury, CT 06702

Contact: (203) 755-2283

Materials Accepted: Spent acids and caustics, various plating wastes, cyanides.

Type of Facility: Treatment

Liquacon
Old Waterbury Road
Thomaston, CT 06787

Contact: (203) 283-8235

Materials Accepted: Acids, caustics, cyanides, heavy metals in solution,
sludges with heavy metals.

Type of Facility: Treatment

Safety-Kleen
24 Brixton Street
West Hartford, CT 06110

Contact: (203) 522-4222

Materials Accepted: Degreasing solvents

Type of Facility: Treatment

Solvents Recovery Service of New England, Inc.
Lazy Lane
Southington, CT 06489

Contact: (203) 621-6791

Materials Accepted: Waste solvents

Type of Facility: Treatment

Illinois

Acme Solvent Reclaiming, Inc.
1915 20th Avenue
Rockford, IL 61108

1200 Sylvan Street
Linden, NJ 07036

Contact: (201) 925-8600

Materials Accepted: Emulsions, solvents, acid and alkali solutions, flammable and non-flammable liquids, paint, pigment residues

Type of Facility: Transfer, storage, reprocessor, reclamation

New York

Chemical Waste Disposal Corporation

42-19 19th Avenue
Astoria, NY 11105

Contact: (212) 274-3339

Materials Accepted: Laboratory Chemicals, acids and caustics, solvents

Type of Facility: reclamation, transfer, neutralization

Frontier Chemical Waste Process, Inc.

4626 Royal Avenue
Niagara Falls, NY 14303

Contact: (716) 285-8208

Materials Accepted: Organic and inorganic chemical aqueous liquids, cyanide
plating wastes and sludges, solvents, lacquers

Type of Facility: Treatment

Radiac Research Corporation

261 Kent Avenue
Brooklyn, NY 11211

Contact: (212) 963-2233

Materials Accepted: All classes of hazardous materials, including radioactive
and explosive wastes

Type of Facility: transfer, storage

SCA Chemical Services, Inc.

P.O. Box 200
1135 Balmer Road
Model City, NY 14107

Contact: (716) 754-8231

Materials Accepted: Acids and caustics, cyanide, heavy metals in solution,
solvents, paint sludges, pesticides, waste lab chemicals

Type of Facility: Neutralization, detoxification, recovery, secure landfill

Ohio

Chemtron Corporation
35850 Schneider Court
Avon, Ohio 44011

Contact: Ronald Guenther (216) 934-6131

Materials Accepted: Solvents in drum quantities only

Type of Facility: Processor - recycler

Services: Recycles solvents for resale or return to customer and transportation.

Commercial Oil Services
3600 Cedar Point Road
Oregon, Ohio 43616

Contact: Dan Soncrant (419) 836-3694

Materials Accepted: Halogenated & non-halogenated solvents, waste petroleum based oils for full blending in drum or tank quantities.

Services: Recycles solvents for return to customer and transportation

Environmental Processing Services
416 Leo Street
Dayton, Ohio 45404

Contact: Dony Benbow (513) 222-1062

Materials Accepted: Halogenated & non-halogenated industrial solvents in drum quantities only

Services: Recycles solvents for resale or return to customer and transportation

Granville Solvents, Inc.
Palmer Lane
Granville, Ohio 43023

Contact: John Reeb (614) 587-0079

Materials Accepted: Solvents in drum, tank or bulk quantities

Services: Recycles solvents for resale or return to the customer.

Hukill Chemical Corporation
7013 Krick Road
Cleveland, Ohio 44146

Contact: Robert Hukill (216) 232-9400

Materials Accepted: Halogenated & non-halogenated solvents in drum & tank quantities

Services: Recycles solvents for resale or return to customer and transportation

Klor Kleen, Inc.
3159 Spring Grove Ave.
Cincinnati, Ohio 45225

Contact: Elmer Lay (513) 681-0060

Materials Accepted: Solvents in drum or tank quantities

Services: Recycles solvents for resale or return to customer and transportation.

Liberty Solvents & Chemical Co.

WASTE OIL RECOVERY FACILITIES

As the price of crude oil has risen in the past few years, more industries and consumers are taking measures to recycle oil. The Missouri regulations define waste oil as used petroleum-based lubricating, transmission, transformer, hydraulic or cutting oil. This section was created to list the many waste oil recovery facilities in our surrounding area.

HEAVY AND PRECIOUS METAL RECOVERY FACILITIES

Firms that recover precious metal have been added to this section. There are a number of facilities that recover silver from film scrap throughout the country. Missouri has three such facilities. Several firms listed below recover heavy metals from sludges and other industrial material also. Reclamare Enterprises is the only firm in Missouri which accepts heavy metals.

METAL RECOVERY FACILITIES

Alabama

Jared Associates

3420 Sierra Drive
Birmingham, Alabama 35209

Materials Accepted: Film, photographic paper, electrolytic silver, ash from film and paper burning, solutions, sludge, metallic replacement cartridges.

Type of Facility: Recovers silver

Starfire Silver Company

Highway 53 North
P. O. Box 434
Cottonwood, Alabama 36320

Materials Accepted: Film, photographic paper, electrolytic silver, ash from film and paper burning, solution, sludge, metallic replacement cartridges.

Type of Facility: Recovers silver

Arizona

Labko, Inc.

4129 West Pasadena Ave.
Phoenix, Arizona 85019

Materials Accepted: Film, photographic paper, electrolytic silver, ash from film and paper burning, solution, sludge, metallic replacement cartridges.

Type of Facility: Recovers silver

Merry X-Ray Corporation

3738 East Grant Road
Tucson, Arizona 85716

Materials Accepted: Film, photographic paper, electrolytic silver, ash from film and paper burning, solution, sludge, metallic replacement cartridges.

Type of Facility: Recovers silver.

Merry X-Ray Corporation
1617 Jefferson Street
Phoenix, Arizona 85034

Materials Accepted: Film and photographic paper

Type of Facility: Recovers silver

Silver Systems, Inc.
1407 E. Jackson
Phoenix, Arizona 85034

Materials Accepted: Film, photographic paper, electrolytic silver, ash
from film and paper burning, solutions, sludge and
metallic replacement cartridges.

Type of Facility: Recovers silver

California

A & W Smelter and Refiners
P.O. Box 67
Mojave, California 93501

Materials Accepted: Film, photographic paper, electrolytic silver, ash
from film and paper burning, solutions, sludge and
metallic replacement cartridges.

Type of Facility: Recovers silver

American Chemical & Refining Company, Inc.
12224 Barringer
South El Monte, California 91733

Materials Accepted: Electrolytic silver, ash from film and paper burning,
solutions and metallic replacement cartridges.

Type of Facility: Recovers silver

Chemco Photoproducts Co.
1368 East 15th St.
Los Angeles, California 90021

Materials Accepted: Film, photographic paper, and electrolytic silver.

Type of Facility: Recovers silver.

Chem West Industries, Inc.
50 California Street - 2925
San Francisco, CA 94111

Contact: Mack Atkinson ((415) 421-8745

Materials Accepted: Pickle liquors (FeCl_2 or FeSO_4) with significant amounts of unspent acids: dilute hydrochloric acid or sulfuric acid solutions.

Dnew Refining Co.
1717 4th Street
Berkeley, California 94710

Materials Accepted: Film, photographic paper, electrolytic silver, ash from film and paper burning, solutions, sludge and metallic replacement cartridges.

Type of Facility: Recovers silver

E S I Chemical Company
600 Nichols Road
Pittsburg, CA 94565

Contact: Department of Health Services
Resource Recovery Person
William Quan (415) 540-3000

Materials Accepted: Zinc and copper residues.

Imperial West Chemical Company
1701 Wilbur Ave
P.O. Box 696
Antioch, CA 94509

Contact: Art Skiathas (415) 727-8230

Materials Accepted: Pickle liquor (FeCl_2/HCL); chemical etching and milling liquors containing ammoniacal copper, copper sulfate, cupric chloride, cupric nitrate.

Industrial Silver Company
1120 North Citrus Ave.
Hollywood, California 90038

Materials Accepted: Film, photographic paper, electrolytic silver, ash from film and paper burning, solutions, sludge and metallic replacement cartridges.

Type of Facility: Recovers silver

Kemstar Corporation
2073 Linnington Ave.
Los Angeles, CA 90025

Contact: (213) 666-7777

Materials Accepted: Metals

Liquid Chemical Corporation
10585 Industry Ave.
Hanford, CA 92320

Contact: Donald E. Garrett (209) 582-9228

Materials Accepted: Zinc residues

Morgan Chemical Company
520 Cleveland Lane
P.O. Box 965
Petaluma, CA 94952

Contact: Thomas Morgan (707) 763-5111

Materials Accepted: Unused chemicals and chemical formulations of all kinds.

Newport International Metals
1501 Westcliff Dr., Suite 220
Newport Beach, California 92660

Materials Accepted: Film, photographic paper, electrolytic silver, ash
from film and paper burning, solutions, sludge and
metallic replacement cartridges.

Type of Facility: Recovers silver

Oxy Metal Industries
Recovery Services Group
3628 East Olympic Blvd.
Los Angeles, California 90023

Materials Accepted: Film, photographic paper, electrolytic silver, ash
from film and paper burning, solutions, sludge and
metallic replacement cartridges.

Type of Facility: Recovers silver

Quaternion
2026 Livingston
Oakland, CA 94606

Contact: Louis or Dave Nagel (415) 535-2311

Materials Accepted: Distressed chemicals and waste chemicals of all kinds.

Quicksilver Products, Inc.
556 Clay Street
San Francisco, CA 94111

Contact: Grace Emmons (415) 781-1988

Materials Accepted: Mercury (metallic only)

Radiographic Systems
2630 Humboldt St.
Los Angeles, California 90031

Materials Accepted: Film, photographic paper, electrolytic silver, solutions, metallic replacement cartridges.

Type of Facility: Recovers silver.

Sel-Rex Company
Division of Oxy Metal Industries
2080 Nordhoff Street
Chatsworth, CA 91311

Contact: John Gilliland (213) 882-9444

Materials Accepted: Plating and other wastes containing gold, silver, platinum, palladium, rhodium, copper and nickel.

Shape Products
1100 - 6th Ave.
Oakland, CA 94606

Contact: Dwight Gustafson (415) 893-0313

Materials Accepted: Specialize in recycling laboratory reagent and technical chemicals.

Silver Dynamics, Inc.
16692 Hale Avenue
Irvine, California 92714

Materials Accepted: Film, photographic paper, electrolytic silver, ash from film and paper burning, solutions, sludge and metallic replacement cartridges.

Type of Facility: Recovers silver

Smilo Chemical Company
500 Kirkham Street
Oakland, CA 94607

Contact: Barney Smilo (415) 465-8022

Materials Accepted: Unused industrial chemicals and formulated products
of all types.

Solvent Services Company
1021 Berryessa
San Jose, CA 95133

Contact: Thomas Dinette (408) 286-6446

Materials Accepted: Chlorinated hydrocarbons, ketones, alcohols, thinners,
naphthas, mixed solvents, Freons (TE and TF); selected
metal solutions. Cu (Sells to metal refiner in Tacoma,
Wash.)

Southern California Chemical Company
8851 Dice Road
Santa Fee Springs, CA 90670

Contact: Greg Otterbach (213) 698-8036

Materials Accepted: Pickling liquors (FeCl_2); copper containing etchant
solutions.

Summer Chemical Company
2020 Wright Ave.
Richmond, CA 94804

Contact: Philip Kaufman (417) 237-9951

Materials Accepted: Elemental lead and tin and zinc chloride.

Universal Smelting & Refining Co., Inc.
Box A Z, Main P. O.
Ventura, California 93001

Materials Accepted: Film, photographic paper, electrolytic silver, ash from
film and paper burning, solutions, sludge.

Type of Facility: Recovers silver

West Coast Silver Corporation
390 McGinnis Lane
Campbell, California 95076

Materials Accepted: Film, photographic paper, electrolytic silver, ash from film and paper burning, solutions, sludge, metallic replacement cartridges.

Mishicot, WI 54228

Contact: (414) 755-4511

Materials Accepted: Lead from spent batteries.

STEEL DRUM RECONDITIONERS

Steel drum reconditioning firms are able to reshape, repair, clean and repaint standard closed end and open end steel drums to meet Department of Transportation specifications. The service charge for reconditioning a drum is about one-third the cost of purchasing a new drum or half the cost of purchasing a used drum. Reconditioners also purchase used drums outright, recondition, clean and sell them to third parties. They will normally refuse to accept drums which have not been adequately emptied, or which contain hazardous residues, or which pose unusual or difficult cleaning problems. Further details should be sought from the reconditioners.

DRUM RECONDITIONERS

Arizona

Diamond Drum Service

116 East Broadway
Mesa, Arizona 85202

Contact: (602) 833-3531

Materials Accepted: Barrels and drums which previously held certain types of hazardous materials or wastes, only if triple rinsed.
